Hosur, Tamil Nadu | Phone: 8807698945 | Email: shuzaifasamee@gmail.com | [Linkedin](#) | [GitHub](#)

SUMMARY

Motivated MCA student and Software developer with hands-on experience in AI-based systems, web development, and backend applications. Strong skills in Python, Java, Flask, OpenCV, and database systems. Interested in software development, AI, and backend engineering roles.

TECHNICAL SKILLS

Programming Languages: **Python, Java, HTML, CSS**

Frameworks and Libraries: **Flask, OpenCV, YOLO**

Databases: **MySQL, Oracle SQL**

Tools: **GitHub, VS Code**

Other: **Web Development, API Integration, Basic DevOps Concepts**

PROJECTS

AI-Based Code Vulnerability Detection System (AetherScan) | 2026

- Developed an AI-powered system to detect software vulnerabilities using static analysis, machine learning, and deep learning.
- Implemented TF-IDF, SGD Classifier, and LSTM models for accurate code security analysis.
- Designed an ensemble-based architecture to reduce false positives and improve detection accuracy.
- Built a security dashboard displaying risk scores, severity levels, and recommended fixes.
- Validated system performance using MSR and SARD datasets.

AI-Based Accident Detection and Alert System | 2025

- Developed a real-time accident detection system using YOLO and OpenCV.
- Built a Flask web application for live and recorded video analysis.
- Integrated Telegram API to send instant alert notifications.
- Designed the system to work without IoT devices or manual monitoring.

Women Safety System (Python) | 2026

- Built a terminal-based SOS alert system using Python.
- Implemented automatic logging of time and location details.
- Designed to work offline without internet or mobile applications.

EDUCATION

Bachelor of Computer Applications (BCA) | Vidya Mandir College | 2021 – 2024 |

Master of Computer Applications (MCA) | Reva University, Bangalore | 2024 – 2026 |

CERTIFICATIONS

Microsoft Certified in Azure AI Fundamentals with strong interest in AI and cloud technologies

Code to Cloud: DevOps and Deployment Bootcamp – MeVi Technologies

Build Your Portfolio Website with Angular JS – Course era Project Network

EXPERIENCE

Backend Developer & API Integration Intern | MIMO

Duration: 6 Months

- Designed and implemented backend logic and APIs
- Performed API integration for seamless communication between services
- Assisted in database operations and server-side development
- Debugged and tested backend functionalities to ensure reliability
